# The role of sTREM in chronic suppurative lung disease in children

- Longitudinal cohort study
- Analyses of the data has been done but would like some suggestions on any other analyses
- Have a working draft of the paper already

## Primary objectives for the course

- Complete writing up of the manuscript
- Review the statistical analyses
- Mentor to suggest suitable candidate publications for submission
- Improve knowledge on use of statistical package software use
- Would like advise on data set from a follow up study
